

Gogoro to Demonstrate Battery Swapping, New CrossOver, and MUJI Smartscooters in MIH Booth at Japan Mobility Show 2023

October 25, 2023

Gogoro to also Participate in the MIH Consortium Showcase of the Much-Anticipated Debut of the Project X Concept.

TOKYO, Oct. 24, 2023 /PRNewswire/ -- **(Japan Mobility Show)** – Gogoro Inc. (Nasdaq: GGR), a global technology leader in battery swapping ecosystems that enable sustainable mobility solutions for cities, today announced that it is exhibiting in the MIH Consortium booth at the Japan Mobility Show starting today through Nov 5th. MIH is an open electric vehicle (EV) initiative by Hon Hai Technology Group (Foxconn).

Gogoro will be demonstrating its industry leading battery swapping as well as its new CrossOver and MUJI Smartscooters. It will also participate in the MIH Consortium Showcase of the much-anticipated debut of the Project X Concept.

MIH at Japan Mobility Show 2023

Date: Oct. 25th – Nov. 5th

Venue: Tokyo Big Sight

Booth Location: E-78 Hall. No. E7206

About Gogoro

Founded in 2011 to rethink urban energy and inspire the world to move through cities in smarter and more sustainable ways, Gogoro leverages the power of innovation to change the way urban energy is distributed and consumed. Recognized and awarded by Frost & Sullivan as the "2023 Global Company of the Year for battery swapping for electric two-wheel vehicles" and MIT Technology Review as one of "15 Climate Tech Companies to Watch" in 2023, Gogoro's battery swapping and vehicle platforms offer a smart, proven, and sustainable long-term ecosystem for delivering a new approach to urban mobility. Gogoro has quickly become an innovation leader in vehicle design and electric propulsion, smart battery design, battery swapping, and advanced cloud services that utilize artificial intelligence to manage battery availability and safety. The challenge is massive, but the opportunity to disrupt the status quo, establish new standards, and achieve new levels of sustainable transportation growth in densely populated cities is even greater.
